As of February 2014, VA employs more than 110,000 Veterans. VA continues to rank second only to the Department of Defense in the number of Veterans in the workplace. Veterans now comprise nearly one-third (32.4 percent) of the VA workforce as we work toward VA's goal to increase the number to 40 percent. The Veteran Employment Services Office (VESO) within the Office of Human Resources and Administration leads VA's efforts to recruit, retain and reintegrate Veterans into VA through its *VA for Vets* program. VA remains committed to recruiting the most qualified Veterans and non-Veterans to join the workforce and contribute to our mission of serving Veterans. For additional information on the *VA for Vets* program, visit the website at http://vaforvets.va.gov.
